

**NAME**

**00-upstream-settings** – dconf configuration file

**SYNOPSIS**

**/etc/dconf/db/ibus.d/00-upstream-settings**

**DESCRIPTION**

IBus is an Intelligent Input Bus. It is a new input framework for Linux OS. It provides full featured and user friendly input method user interface. It also may help developers to develop input method easily.

**00-upstream-settings** is a text configuration file of dconf and can be converted to **/etc/dconf/db/ibus** by **dconf update** command with a write privilege in **/etc/dconf/db**. **/etc/dconf/db/ibus** is a database file of dconf and saves the IBus default settings. The saved keys and values can be readed by dconf command.

```
env DCONF_PROFILE=ibus dconf list /desktop/ibus/
```

**BUGS**
