

**NAME**

w3mman – an interface to the on-line reference manuals via w3m(1)

**SYNOPSIS**

**w3mman** [ **-M** *path* ] [ [ *section* ] *page* ]

**w3mman** [ **-M** *path* ] [ *section* ] **-k** *keyword*

**w3mman** **-l** *file*

**DESCRIPTION**

**w3mman** is a Perl script that uses **w3m**(1) to serve as a pager for on-line reference manuals.

**OPTIONS**

A summary of options is included below.

**-M** *path*

Specify *path* as alternative MANPATH to use.

**-k** *keyword*

Specify *keyword*.

**-l** *file* Specify a *file*.

**ENVIRONMENT**

Two variables are available for debugging.

**W3MMAN\_W3M**

If W3MMAN\_W3M is set, its value is used instead of w3m.

**W3MMAN\_MAN**

If W3MMAN\_MAN is set, its value is used instead of /usr/bin/man.

**FILES**

/usr/lib/w3m/cgi-bin/w3mman2html.cgi

manual page to HTML converter.

**SEE ALSO**

**man**(1), **w3m**(1).

**AUTHOR**

This manual page was written by Fumitoshi UKAI <ukai@debian.or.jp>, for the Debian GNU/Linux system (but may be used by others).
