

NAME

wxrc – command line compiler for wx xml resources.

DESCRIPTION

The real documentation for this tool (what of it that exists) is available in the wxWidgets manual, which is packaged in html format in the wx3.0-doc package and installed in /usr/share/doc/wx3.0-doc/html/overview_xrc.html on Debian systems.

COPYRIGHT

This manpage was written by Ron Lee <ron@debian.org> for the Debian GNU/Linux distribution of wxWidgets. It may be freely distributed by anyone insane enough to find it useful.
