

NAME

PCRE2 - Perl-compatible regular expressions (revised API)

SYNOPSIS

```
#include <pcre2.h>

int pcre2_set_recursion_limit(pcre2_match_context *mcontext,
    uint32_t value);
```

DESCRIPTION

This function is obsolete and should not be used in new code. Use **pcre2_set_depth_limit()** instead.

There is a complete description of the PCRE2 native API in the **pcre2api** page and a description of the POSIX API in the **pcre2posix** page.
