

NAME

git-lfs-logs – Show errors from the git-lfs command

SYNOPSIS

git-lfs logs

git-lfs logs *file*

git-lfs logs clear

git-lfs logs boomtown

DESCRIPTION

Display errors from the git-lfs command. Any time it crashes, the details are saved to ".git/lfs/logs".

COMMANDS

clear Clears all of the existing logged errors.

boomtown

Triggers a dummy exception.

OPTIONS

Without any options, **git-lfs logs** simply shows the list of error logs.

file Shows the specified error log. Use "last" to show the most recent error.

SEE ALSO

Part of the git-lfs(1) suite.
