

NAME

flatpak-repo – Show information about a local repository

SYNOPSIS

flatpak repo [OPTION...] LOCATION

DESCRIPTION

Show information about a local repository.

If you need to modify a local repository, see the **flatpak build-update-repo** command, or use the **ostree** tool.

OPTIONS

The following options are understood:

-h, --help

Show help options and exit.

--info

Print general information about a local repository.

--branches

List the branches in a local repository.

--metadata=BRANCH

Print metadata for a branch in the repository.

--commits=BRANCH

Show commits and deltas for a branch in the repository.

-v, --verbose

Print debug information during command processing.

--ostree-verbose

Print OSTree debug information during command processing.

EXAMPLES

\$ flatpak repo --info ~/my-repo
