

NAME

`mako-render` – renders Mako templates

SYNOPSIS

mako-render [FILE]

DESCRIPTION

This manual page documents briefly the **mako-render** command.

mako-render is a standalone utility that can render Mako templates. Mako is a fast Python-powered template engine. If FILE is a single "-", standard input will be used as a template source.

OPTIONS

These programs follow the usual GNU command line syntax, with long options starting with two dashes ('-'). A summary of options is included below.

-h, --help

Show summary of options.

AUTHOR

`mako-render` script was written by Miki Tebeka <miki.tebeka@gmail.com>, Mako was written by Mike Bayer <mike@zzzcomputing.com>.

This manual page was written by Piotr Oarowski <piotr@debian.org>, for the Debian project (but may be used by others).
