

NAME

create-cracklib-dict – Check passwords using libcrack2

SYNOPSIS

create-cracklib-dict wordlist ...

DESCRIPTION

create-cracklib-dict takes one or more word list files as arguments and converts them into cracklib dictionaries for use by password checking programs. The results are placed in the default compiled-in dictionary location.

If you wish to store the dictionary in a different location, use the cracklib-format and cracklib-packer commands directly.

SEE ALSO

cracklib-format(8), **cracklib-packer(8)**, **cracklib-check(8)**,
