### **NAME**

bcopy - copy byte sequence

### **LIBRARY**

Standard C library (libc, -lc)

#### **SYNOPSIS**

#include <strings.h>

[[deprecated]] void bcopy(const void src[.n], void dest[.n], size\_t n);

## **DESCRIPTION**

The **bcopy**() function copies n bytes from src to dest. The result is correct, even when both areas overlap.

# **RETURN VALUE**

None.

# **ATTRIBUTES**

For an explanation of the terms used in this section, see **attributes**(7).

Interface	Attribute	Value
bcopy()	Thread safety	MT-Safe

### **STANDARDS**

4.3BSD. This function is deprecated (marked as LEGACY in POSIX.1-2001): use **memcpy**(3) or **memmove**(3) in new programs. Note that the first two arguments are interchanged for **memcpy**(3) and **memmove**(3). POSIX.1-2008 removes the specification of **bcopy**().
