NAME

matchmediacon − get the default SELinux security context for the specified mediatype from the policy

SYNOPSIS

#include <selinux/selinux.h>

int matchmediacon(const char **media***, char *****con***);**

DESCRIPTION

matchmediacon() matches the specified media type with the media contexts configuration and sets the security context *con* to refer to the resulting context.

Note: Caller must free returned security context *con* using **freecon**(3).

RETURN VALUE

Returns 0 on success or −1 otherwise.

Files

/etc/selinux/{POLICYTYPE}/contexts/files/media
