NAME

systemd-importd.service, systemd-importd − VM and container image import and export service

SYNOPSIS

systemd−importd.service

/lib/systemd/systemd−importd

DESCRIPTION

systemd−importd is a system service that allows importing, exporting and downloading of system images suitable for running as VM or containers. It is a companion service for **systemd-machined.service**(8), and provides the implementation for **machinectl**(1)'s **pull−raw**, **pull−tar**, **import−raw**, **import−tar**, **import−fs**, **export−raw**, and **export−tar** commands.

See **org.freedesktop.import1**(5) and **org.freedesktop.LogControl1**(5) for a description of the D−Bus API.

SEE ALSO

systemd(1), **machinectl**(1), **systemd-machined.service**(8), **systemd-nspawn**(1)
