NAME

dvipdf – Convert TeX DVI file to PDF using ghostscript and dvips

SYNOPSIS

dvipdf [*options*] *input.dvi* [*output.pdf*] *...*

DESCRIPTION

This script invokes **dvips**(1) with the **-q** option, and pipes its output into **gs**(1) with the following options:

-q -dNOPAUSE -dBATCH -sDEVICE=pdfwrite

as well as **-sOutputFile** and any options from the command-line.

SEE ALSO

gs(1), dvips(1)

VERSION

This document was last revised for Ghostscript version 9.55.0.

AUTHOR

Artifex Software, Inc. are the primary maintainers of Ghostscript. This manpage by George Ferguson.
