## NAME

aspell-import − import old personal dictionaries into GNU Aspell

## SYNOPSIS

**aspell-import**

## DESCRIPTION

**aspell-import** is a command that will search for old personal dictionaries and will import them into GNU Aspell. It will look for both Ispell and Aspell dictionaries. To use it just run it from the command prompt.

## OPTIONS

This program does not accept any command-line options.

## SEE ALSO

**aspell**(1), **run−with−aspell**(1), **word−list−compress**(1)

The full documentation for **Aspell** is maintained as a Texinfo manual The ' **aspell** ' entry in **info** for more complete documentation.
