NAME
       besside-ng-crawler - filter EAPOL frames from a directory of capture files.

SYNOPSIS
       besside-ng-crawler <Input Directory> <Output File>

DESCRIPTION
       besside-ng-crawler

       Scans recursively on input directory looking for pcap dumpfiles and filters out one beacon and all EAPOL
       frames for the WPA networks if finds in them.
