NAME

systemd-update-utmp.service, systemd-update-utmp-runlevel.service, systemd-update-utmp − Write audit and utmp updates at bootup, runlevel changes and shutdown

SYNOPSIS

systemd−update−utmp.service

systemd−update−utmp−runlevel.service

/lib/systemd/systemd−update−utmp

DESCRIPTION

systemd−update−utmp−runlevel.service is a service that writes SysV runlevel changes to utmp and wtmp, as well as the audit logs, as they occur. systemd−update−utmp.service does the same for system reboots and shutdown requests.

SEE ALSO

systemd(1), **utmp**(5), **auditd**(8)
