NAME
npm-ping – Ping npm registry

Synopsis
npm ping [−−registry <registry>]

Note: This command is unaware of workspaces.

Description
Ping the configured or given npm registry and verify authentication. If it works it will output something like:

npm notice PING https://registry.npmjs.org/
npm notice PONG 255ms

otherwise you will get an error:

npm notice PING http://foo.com/
npm ERR! code E404
npm ERR! 404 Not Found – GET http://www.foo.com/−/ping?write=true
