NAME

id – print real and effective user and group IDs

SYNOPSIS

id [*OPTION*]... [*USER*]...

DESCRIPTION

Print user and group information for each specified USER, or (when USER omitted) for the current user.

−a   ignore, for compatibility with other versions

−Z, **−−context**
          print only the security context of the process

−g, **−−group**
          print only the effective group ID

−G, **−−groups**
          print all group IDs

−n, **−−name**
          print a name instead of a number, for **−ugG**

−r, **−−real**
          print the real ID instead of the effective ID, with **−ugG**

−u, **−−user**
          print only the effective user ID

−z, **−−zero**
          delimit entries with NUL characters, not whitespace;

          not permitted in default format

−−help display this help and exit

−−version
          output version information and exit

Without any OPTION, print some useful set of identified information.
