NAME
sensors-conf-convert – sensors configuration conversion

SYNOPSIS
sensors-conf-convert *< /etc/sensors.conf > /etc/sensors3.conf*

DESCRIPTION
The purpose of the **sensors-conf-convert** tool is to convert *sensors.conf* from the lm_sensors version 2 format to the lm_sensors version 3 format.

The old configuration file is read from the standard input and the new one is written to the standard output.

SEE ALSO
sensors(1), libsensors(3)
